MANUFACTURE OF EXPLOSIVES

tics of the manufacture of explosives in the United States for the year 1909 are presented in detail in a bulletin soon to be issued by Director Harris 70.9 per cent being so used in 1909 of the forest officers prevented the of the bureau of the census, depart and 84.7 per cent in 1904. of the bureau of the census, depart-ment of commerce It was prepared under the direction of W. M. Steuart, chief statistician for manufactures

The statistics for the manufacture of explosives cover the operations of commercial establishments engaged primarily in the manufacture of gun- sives." These explosives were report. powder and blasting powder, nitrogly-cerin, dynamite, guncotton, nitrosubstitution compounds, and the explosives of which they are components, mite smokeless powder and fulminates. Statistics for governmental establishments are not included except as specially noted Establishments en-gaged primarily in the manufacture of cartridges, detonators and fuses, and an increase for the decade of 138.5 other devices containing explosives per cent in quantity, and 137.2 per are assigned by the census to the in-dustry bearing the designation "firearms and ammunition," while those the manufacture of nitroglycerin, 25 making colored fires, rockets, railroad the manufacture of dynamite, and 13 torpedoes, signal lights, and similar the manufacture of permissible exproducts, are included under "fire- plosives.

ments engaged in the manufacture of 692, as compared with 15,820,144 explosives. The number of persons pounds valued at \$8,919,460, in 1994 in the industry was 7,058, including and 123,214,103 pounds valued at \$5,6274 wage earners. The capital in 210,351, in 1899. The manufacture of vested was \$60,167,976 and the value blasting powder was reported by 38 was \$40,139,661. Jersey was the leading state

The value of products reported for Recovered acid constitutions.

1909 was more than nine times the portant by-product in the manufacvalue of products in 1889, the decade ture of explosives. In 1999 the comcrease. The decrease between 1994 marily in the industry reported the and 1999 in the number of establish recovery of 14,137,857 pounds of acid. ments is due to the fact that a larger valued at \$62,935, and the establish number of individual plants operated ments operated by the federal gov under a common ownership were com-bined and reported as single establishments in 1909 than in 1904. In 1909 there were 54 plants, located in 14 states, which were reported as 16 cs

ments with 747 wage earners and proportions for 1909 are affected by ported as engaged in the manufacture. orted as engaged in the manufacture f explosives, and at the census of 1849, 54 establishments with 579 wage earners and product valued at \$1,590,-

Including the product of the estab-lishments operated by the federal government and the explosives made secondary product by establishments not engaged primarily in the manufacture of explosives, the total production in 1909 was 489,171,650 duction in 1909 and in 1904, 362,085,816

The total production of smokeless powder by all classes of establish ments in 1909 was 6,315,167 pounds, valued at \$4,292,984 as compared with 7,009,720 pounds, valued at \$4,406,477 in 1904, and 3,053,125 pounds, valued at \$1,716,101, in 1899. During the decade 1899-1909 the production of expounds.

The production of guncotton in 1909 valued at \$403,702, in 1899

of nitroglycerin sold as such increased 20,977,317 pounds, or 264,3 per cent in quantity and \$1,542,317, or 95.2 per Washington, D. C., Aug. 13 — Statiscent in value. The larger part of the so of the manufacture of explosives nitroglycerin manufactured, however, was used in the manufacture of dynamite and similar explosives in the establishments where it was produced

Explosives which are intended for use in coal mines where there are in-flammable gases and which have passed the prescribed tests of the United States bureau of mines are designated as "permissible exploed separately for the first time at the census of 1909. Generally they are similar in composition to dynamite. The aggregate production of dynamite and permissible explosives in 1909 by establishments engaged primarily in the industry was 204,-763,299 pounds, in 1904 and 85,846,456 pounds, valued at \$8.247,223 in 1899 the disease an increase for the decade of 138.5 fever have cent in value

In 1909, 44 establishments reported the manufacture of nitroglycerin, 25

In the year 1909 there were report-blasting powder in 1909 agregated at in the United States 86 establish-ed in the United States 86 establish-246,339,875 pounds, valued at \$11,344. From 1904 to 1909 the production f nitroglycerin sold as such increased 20,977,317 pounds, or 264.3 per cent new habitat, but the area upon which and killing in the history of modern they were placed was within the zone affected by the Texas fever within the warfare. tick and during the two or three years following their transfer only the constant care and watchfulness

The animals were examined almost daily to determine whether they had become infested with Texas fever ticks and were placed in specially de-signed cages and sprayed with crude oll at intervals of from 15 to 30 days, but notwithstanding the extreme precautions which were adopted three of the animals died. Gradually, however, the enclosures in which the buffalo were confined were freed from fever ticks and there is a pos-sibility that as the buffalo adapted themselves to their new environment they became more or less immune to No losses from Texas occurred for several years, and the herd has almost quadrupled in number since it was established.

The fact that the herd has not increased more rapidly is due largely to the preponderance of male calves. This characteristic of the buffalo is so pronounced in all of the herds now in captivity that a cow is considered twice as valuable as a bull.

SALT LAKE GIRL'S

Miss Margaret McClure, Salt Lake against society girl, was nearly drowned yes said Glendenning. "I define it as raterday morning at Long Beach, Cal., cial rather than individual prejudice according to dispatches received from The American who goes into Mexico that city by The Tribune last night, and acts like a gentleman will She dured Timothy Horan, prominent treated like one. If he goes th club man, to take a ride on the ocean with the avowed purpose of looking in an old row boat, which was buf for trouble he will find that he will feted around by the waves and over be accommodated without any trou-

Miss McClure and Horan were st ting on the beach, Horan in a bathing suit and Miss McClure in the very newest and flufflest of expensive summer dresses. Near them was the boat, dragged up on the beach and left there to rot. Miss McClure caught sight of it and an idea promptly popped into her head.

"I dare you to take me out in that boat," said she.

"Come along," said Horan. Rowed by a piece of an oar all went well until the craft had reached the place where the big rollers start to There in spite of Horan's best efforts it swung around till it lay

beam on to the waves. A moment later they were in the water. Miss McClure cried out for help and clung on the edge of the boat Horan, swimming strongly, got around to the stern and endeavored to propel it back to the shallow. This fall ng to work he put one arm around the young woman's walst and swam ashore with her. She is reported to be none the worse for her experience. Miss McClure is the guest of her grandmother at Long Beach

AMERICAN FORK NOTES.

American Fork, Utah, Aug. 12— Mrs. James Chipman, Jr., who was operated on at a Salt Lake City hos-pital for appendicitis a week ago, has returned home. She is on the road to complete recovery.
Dr. J. F. Noyes has purchased the

Andrew Adamson building on Main street and is having it remodeled. Mrs. Charles Johnson has rented it and will open a hotel and rooming house about the first of September. Joseph Brown is sick at his home in the First ward, suffering from a complication of diseases.

MANY WAR VETERANS

ENJOY ENCAMPMENT Heber City, Aug. 12.—Nearly 500 veterans of the Black Hawk Indian war gathered today at Heber City for the annual encampment of the state association, which opens tomorrow. The stake house ground, where the old fighters have assembled, already holds delegations from Provo Springville, Goshen, Salina, Spanish Fork, Santaquin, American Fork, Lehi, Pay-son, Pleasant Grove and Huntington. Tomorrow will arrive delegations from Emery, Millard, Juab, Iron and

Sanpete counties.

Among the distinguished guests present today were: J. M. Westwood, Springville, state commander; Virgil Kelly, Millard county, vice state commander; Adolphus Bennett, Sanpete county, second vice commander; George Lambert, Salt Lake City state quartermaster; Rufus Murdock, Heber

George Lambert, State Chaplain; George Harrison, Springville, state chaplain; George Harrison, A programme will be given in the stake house at 10 o'clock tomorrow morning and the afternoon will be devoted to amusements of various kinds.

The property is doing splendidly and they have ore in three different places.

Mr. Daniels, one of the leasers of the Mineral Flat mine in American Fork canyon, is loading a fifty ton.

American Looking for Trouble Sure to Find It—Death and Looting in the War-Swept

San Diego, Cal. Aug. 12—Stories f hardships, sufferings, death and noting in the war swept states of looting in northern Mexico were related yesterday by refugees who arrived on the steamships Benito Juarez and Nevadan. The American passengers, howsay that both the rebels and federals treat foreigners with the greatest consideration with the ex-ception of a few instances in which the foreigners themselves were partly

Of all the stirring tales related that of R. W. Glendenning, son of a former mayor of Salt Lake City, and W. G. Moore probably were the most vivid in that they described the terrible crease in output blasting powder and gunpowder contributed 123,025,772 orly, bison, of which 27 are males missible explosives. "118,916,843 are in splendid condition.

Quiet at Present. Glendenning said that conditions Guaymas south are quiet, but that everywhere the spirit of unrest prevails and that it would only require a small

As an illustration of the ruthless methods and ignorance of the rebels Glendenning told of the case of a grocer in Durango, who had among his stock a number of cases of rat biscuit. When the rebels took the er business houses, including er business houses, including and footcity the grocery store, as well as oththe rebels selzed the boxes contain-ing the poisonous biscuits and began

devouring them.

Ten of the rebels died that night from the effect of the poison and fearing that the water supply had been tampered with, the rebel leader ordered the water boiled. lowing morning a woman peddler en-tered the looted store, discovered a few cases of the rat biscuits left, confiscated them and then sold wares to whomsoever would buy, her

IN BASEBALL

Jersey City, N. J. Aug. 12.—Toron-to's fallen champions and Jersey City's unhappy tailenders made base-ball history at West Side park this afternoon by playing what proved the most remarkable game of all time. These International league clubs went twenty innings to a scoreless tie, darkness halting the pastime

The game proved a world's record, for previously the longest scoreless battle was one played at Oakland, Cal., on August 6, 1910, of eighteen innings. Willis pitched all the way for Oakland and "Rubber" Krapp, late of Cleveland, hurled the entire distance for Portland

Wherefore Hearne, the Toronto pitcher, has now the distinction of the world's championship for number of scoreless innings in a single battle. He worked the entire twenty innings against the Skeeters and what is even more remarkable, allowed Jersey City only seven scaltered hits

Brandon, formerly of the Pirates who was a rival of "Rube" Marquard in the American association, was sent to the rescue of Thompson in the fourteenth inning after a pinch hitter had batted for the twirler who started the duel against Hearne The box work of both sides was of such phenomenal order that only one misplay was made. When it is con-

sidered that no less than 120 outs had to be registered, the brilliancy of this defense presents itself more forcibly. Here is the score by innings, just to show how it locks:

000000000000000

000000000000000 Batteries: Hearne and Graham Thompson, Brandon and Blair.

TELLS HOW TO SAVE CROPS FROM FROST A. H. Thiessen, section director of the United States weather bureau, has returned from a trip to Nephi and Mills, where he went to investigate

conditions relative to early damaging the alfalfa seed. FINDS ORE IMPROVING American Fork, Utah, Aug. 12.— George B. Tyler, leaser of the Pacific mine, loaded and shipped a forty ton car of ore yesterday to the smel-ter. This car is a better grade than the last one that was shipped, and

car of lead-sliver ore for the smelters This property is encouraging as the leasers are working on one two-foot vein on one tunnel level and upon a three-foot vein in the Brondbent tunnel, and are making prepara-tions to put two more teams at work hauling the ore to the railroad.

PROVO NEWS.

Provo, Aug. 12.—By request of the taxpayers, the county commissioners have levied a special 5-mill road tax in the following districts: Goshen and Elberta, Springville, Clinton, Tucker Thistle and Colton.

Marriage licenses have been issued to John W. Street and Olga Hansen, both of Lehl, and to Clyde H. Stephens and Mabel B. Stephens, both of Duchesne

A. H. Engberg was adjudged guil-today in Precinct Justice E. L. Jones's court for illicit liquor selling in Salem and was fined \$150. case will be appealed. The defense holds that the effect of the liquor The defense election in Salem in 1911, which resulted in prohibiting liquor from being issued, is invalidated by reason of the mayor's proclamation, announcing the result, was posted in only three places, while the statute provides for posting in five places.

Walter Adams and family have re-turned from a three weeks automobile trip to Yellowstone park and in termediate points of interest. Peter Anderson died here yesterday from general paralysis. The deceased was a native of Sweden, aged 70. The body was shipped to Taylorsville, Salt

How to Destroy the Dandruff Germ

BY A SPECIALIST.

That the dandruff germ is responsible for nearly all the diseases to which the scalp is heir, as well as for baldness and premature gray hair, is a well known fact, but when we real ize that it is also indirectly respon sible for many of the worst cases of catarrh and consumption, we appreci ate the importance of any agent that will destroy its power. We are, there fore, particularly pleased to give herewith the prescription which an eminent scientist states he has found, after repeated tests, to completely destroy the dandruff germ in from one to three applications. It will also almost immediately stop falling hair and it has in numerous cases produced a new hair-growth af ter years of baldness. This prescrip tion can be made up at home, or any druggist will put it up for you: 6 ounces Bay Rom, 2 ounces Lavona de Composee, one-half drachm Men thol Crystals. Mix thoroughly, and Mix thoroughly, and after standing half an hour it ready for use. Apply night and morning rubbing into the scalp with the finger-tips. If you wish it per fumed, add half a teaspoonful of To-Kalon Perfume, which unites with the other ingredients While this preparation is not a dye bair to its original color.

MERCHANT RECOMMENDS THIS BURTS

Successful Salt Lake City Business Man Talks About Plant luice

Mr. John Caire, the fruit merchant at 6 West Broadway, who has built up one of the largest businesses in his line in Salt Lake City, has received benefits from the use of Plan Juice and is enthusiastic over this new tonic which is benefiting so many people throughout the state and West. He says:

"For indigestion and a general run-down condition I don't believe there is anything so good as your Plant I heard so much about it from people I know that I decided to try it, I had indigestion something flerce and was run down and nervous. One bottle straightened me out, put my stomach in fine shape and trengthened me and seemed to put new blood in me. I wish you all the uccess possible and I know you for there is nothing that

know of as good as Plant Juice."
Plant Juice represents the great Lake county, where Mr. Anderson had est combination of extracts, juices and essences of medicinal herbs that science has been able to produce. It is the most marvelous reconstructive system cleanser and curative producof the age. It is an absolute specific or all derangements of the stomach idneys, liver and blood. If you are have indigestion, or any allilious, ment of the vital organs named, get a supply of Plant Juice. It is for sale at the McIntyre drug store,
